PROFESSIONAL SUMMARY

Dedicated Frontend Developer and founder of StackNova Technology with over 1 year of hands-on experience in building modern, scalable, and highly responsive web applications. Specialized in utilizing React.js, Tailwind CSS, and full-stack MERN technologies to deliver seamless user experiences.

EXPERIENCE

Founder & Frontend Developer

StackNova Technology | Custom Web Solutions

- Founded and currently operate a freelance development agency focusing on high-converting client applications.
- Architected and deployed dynamic single-page applications (SPAs) and multi-page platforms utilizing React Router and Framer Motion.
- Implemented fully responsive designs and tailored UI/UX utilizing Tailwind CSS and advanced modern state management frameworks.

SELECTED PROJECTS

Attendance Management System (Fullstack)

- Engineered a comprehensive employee geofenced attendance system involving precise geolocation tracking over a MERN stack (MongoDB, Express.js, React.js, Node.js).

InstaTrendz E-Commerce Demo

- Built an interactive e-commerce catalog featuring automated WhatsApp integration for orders and dynamic product interactions.

Premium Landing Pages

- Designed multiple premium client facing landing pages involving highly animated scroll-triggers, custom cursor tracking, and dark/light theme switching technologies.

TECHNICAL SKILLS

- Languages: HTML5, CSS3, JavaScript
- Frameworks & Libraries: React.js, Tailwind CSS, Express.js, Framer Motion
- Databases & Tools: Node.js, MongoDB, MySQL, Git
- Core Competencies: Responsive Web Design, Animated UI/UX, Single Page Applications, System Layouts
